Figure 5: Sharing a prayer

A nation-wide camp was conducted over 5 days, devoted to a focused study of Book 7 ('Walking a Path of Service') with the intention to strengthen the

capacity of the friends in tutoring Book 1. Core principles nurtured the creating spaces that focused on the advancement of understanding, emphasizing the warmth of sharing prayers, and overall, a shift in perspective to contribute this spiritual solution as something that is not just for Baha'is, but for everyone. Following this camp, 20+ new tutors set out with renewed energy and enthusiasm, leading elevated conversations within their families, schools, and within their institutions.

Youth night (Saturdays @ Mercy)

Figure 8: Youth Program

Every Saturday Tofoa's Youth gathers at Mercy's house for their normal Youth Group program. As of last week, the full round of hosting for each Youth member was completed. These spaces not only allow

each member of the Youth Group despite their minimum experience in the field of service to be able to host the Youth program and facilitate the Group. As this cycle closes the youth has reflected on their previous plan from start of last cycle: what they have achieved, reflection on what could've been done better and the plan moving forward to the next cycle and the first year of the second phase of the 9 Year Plan.

and a half this initiative to start was a gleam of hope to her JY journey. She shares how fast time is and how much being away from the program has impacted her that she is being influenced by the environment around her in a negative way and she wishes to complete her JY texts before she becomes a Youth. Not only will it help navigate her journey in life, but she will gain insights and knowledge for which will be useful when stepping in the field of service. Walking The Straight Path lesson 6 is the text they are studying with her Animator Ruby Kafalava.
